# RELIANCE CAPITAL INSOLVENCY PROCESS Hindujas seek more time to pay lenders

Original deadline ends on May 27

RAJESH KURUP  
Mumbai, May 15

**HINDUJA GROUP, WHICH** recently received the crucial insurance regulator's approval to conclude the acquisition of Reliance Capital's (RCap) three insurance companies, has sought more time to make the payment to the lenders.

The original deadline for completion of RCap's insolvency proceedings ends on May 27. The buyer, according to the resolution proposal submitted before the National Company Law Tribunal (NCLT), has to make the payments before the deadline.

IndusInd International Holdings (IIHL), a group firm through which the Hinduja Group had placed bids for RCap, has asked the committee of creditors (CoC) to provide it more time as the regulator's approvals came with certain conditions, sources close to the development said.

These approvals were subject to certain regulatory, statutory and judicial clearances and compliances. A lawsuit challenging the second e-

auction is now pending before the Supreme Court and it needs to be concluded, while the firm also needs approvals for a change in proposed holding structure, they added.

On Friday, the Insurance Regulatory and Development Authority of India permitted transfer of RCap's 26% stake in three insurance firms to Aasia Enterprises, a private family firm with 90% stake held by Ashok P Hinduja (Hinduja Group chairman), 5% each by Harsha A Hinduja (Hinduja Foundation trustee) and Shom A Hinduja (president, alternative energy and

Last week, Ashok P Hinduja had said that IIHL tied up the funds needed for the deal — of which 25% would be equity that would come from a subsidiary of IIHL, while the remaining 75% will be debt.

A consortium of banks has given a letter stating they will provide the money within 48 hours of all approvals. IIHL had got all other approvals, including from the Sebi, RBI and CCI, and was awaiting the Irdai approval.

# AI Express cancels some flights on rostering issues

PRESS TRUST OF INDIA  
New Delhi/Mumbai, May 15

**AIR INDIA EXPRESS** on Wednesday cancelled some flights as the airline grapples with crew rostering system issues, according to sources.

The Tata Group-owned carrier, which generally operates around 380 flights daily, has moved to a new rostering system. Since there are some issues with the system, it is impacting the scheduling for cabin crew and pilots, the sources said.

At the Delhi airport, seven Air India Express flights — four departures and three arrivals — for the period between 1.50 am and 8 pm have been cancelled for Wednesday, sources said. There were also flight cancellations at a few other airports, the sources added.

However, the total number of flight cancellations could not be immediately ascertained. There was no comment from Air India Express.

This comes a week after the airline witnessed disruptions due to a section of cabin crew reporting sick to protest against the alleged mismanagement. The strike was called off on May 9 and the crew members joined back duty by May 11.

On Tuesday, an official in the know had said the airline

# Nagarro targets \$10 bn by 2034, 25% annual growth

PADMINI DHURVARAJ  
Bengaluru, May 15

MANAS FULORIA, CEO, NAGARRO

**INDIAN-ORIGIN, GERMAN-BASED COMPANY** Nagarro, a global digital engineering services provider, has set an ambitious goal to become a \$10-billion company in the next 10 years or by 2034, with an annual growth rate of 25%.

"Historically, we have grown 20-30% every year. We have gone from \$100 million to a billion in roughly 10 years, and we want to achieve the next 10X in the next 10 years. That's our current mindset," Manas Fuloria, CEO, Nagarro, told FE. "If you achieve 25% growth over 10 years, you end up very close to \$10 billion, and that's our thinking," he added.

Nagarro, whose major workforce is based in India, reached the milestone of becoming a \$1-billion company in the calendar year 2023. In Q1 of 2024, it reported revenue of 238.3 million euros, a 7.6% q-o-q increase from 221.4 million euros, and a

net profit of 16.6 million euros, up from 15.1 million euros in the previous quarter. The company follows calendar year.

"While the industry may not be out of the woods yet, we think there is some hope for a better scenario in the coming quarters," Fuloria said.

The demand for Nagarro's services, particularly in digital engineering, has shown improvement, Fuloria noted. "What we saw was that the general tendency to postpone digital spend and delay the launch of new projects and initiatives is now fading away. We see a lot more activity, travel, and conversations with our clients," he added.

Nagarro has over 13,000 of its 18,000 employees based in India and plans to hire 1,000 more with focus on senior specialised skill sets rather than entry-level positions. "One notable change is that most of our growth now stems from new projects and new clients, rather than the usual expansion of existing programmes. This shift necessitates specialised skill sets, rather than entry-level individuals," Fuloria said.

# GenAI to hit 17% of work hours in APAC

PADMINI DHURVARAJ  
Bengaluru, May 15

**GENERATIVE ARTIFICIAL INTELLIGENCE (GenAI)** could impact 17% of working hours — almost 1.1 billion hours — across the Asia Pacific region every year, a report by Deloitte said. This transformative effect of GenAI could either automate certain tasks or augment them, requiring workers to integrate AI into their workflows.

Developing economies are adopting GenAI 30% higher than their developed counterparts, with India leading the way in the adoption and integration across educational and professional sectors, the report said. The survey reveals that 93% of students and 83% of employees in India have used GenAI. This widespread adoption positions India at the forefront globally, ranking first out of nine countries for GenAI usage. The trend shows no signs of slowing down, with the percentage of users expected to increase by 182% over the next five years.

The company surveyed over 11,900 individuals across the region, including about 9,000 employees and 2,900 students.

Further, the report showed that the use of GenAI saves users

almost a day per week, freeing up time for learning new skills and leading to higher levels of satisfaction in both work and academic settings. The top three benefits of GenAI cited include increased speed in completing tasks (86%), improved quality of work outputs (85%), and an enhanced ability to generate new ideas (83%).

Despite these advantages, several barriers to business adoption remain, including rollout challenges, concerns about risk and insufficient understanding of the technology.

# Over 86% top execs using AI to fuel revenue growth

PADMINI DHURVARAJ  
Bengaluru, May 15

**EIGHT OUT OF TEN (86%)** senior business leaders in the country have already deployed artificial intelligence (AI) to enhance existing revenue streams or create new ones, according to a new study by Tata Consultancy Services. This widespread adoption is driven by the need to improve operational efficiency, customer experiences and make data-driven decisions.

The study highlights how AI is revolutionising industries by enhancing efficiency, driving innovation and enabling data-driven decision-making. Despite these advancements, the study also reveals a notable reluctance among senior executives to fully embrace generative AI (GenAI).

The report, titled TCS AI for Business Study, indicates that around 69% of businesses are more focused on using AI to spur innovation and increase revenue than on productivity improvement and cost optimisation. The country's

# Jindal Stainless Q4 profit falls 30% on high nickel prices

RAJESH KURUP  
Mumbai, May 15

**JINDAL STAINLESS (JSL)** has earmarked a capex of ₹4,700 crore for FY25, a majority of which would be used for its proposed expansion plans. The rise in capex, from ₹3,800 crore in FY24, is also on back of expectations of a rise in local demand, said MD Abhyuday Jindal.

JSL on Wednesday posted a 30% fall in consolidated net profit to ₹501 crore for the fourth quarter, while its net revenue fell 3% to ₹9,454 crore and Ebitda slid 10% to ₹1,035 crore. The margins were under pressure on account of negative inventory valuation due to continuously falling nickel prices.

A Bloomberg estimate had pegged net profit of ₹578 crore, on revenue of ₹9,605 crore and

an Ebitda of ₹1,061 crore.

The company looks to fund about 90% of the capex, including a spillover of ₹800 crore from FY24, via internal accruals. The capex would be used for expansion of brownfield activities, completion of 54% stake in Chromeni Steels in Mundra and setting up of a 1.2 million tonne per annum stainless steel melt shop in Indonesia. Jindal said in a post-earnings conference.

"We are expecting a 20% rise in volume growth on domestic demand in this fiscal," he said, adding that JSL would spend an additional ₹500 crore as sustenance and maintenance capex.

Earlier, JSL had announced a capex of ₹5,675 crore over three years, which includes major acquisition and expansion plans to hike capacity to 4.2 MTPA from 3 MTPA now.

# Isha Ambani seeks more female STEM graduates

**ISHA AMBANI, DIRECTOR** on board of Reliance Industries and daughter of Mukesh Ambani, on Wednesday called out the gender divide in the tech workforce, saying age-old dogmas and societal stereotypes like women being best-suited as teachers and jobs involving soft skills are to be blamed for the low percentage of female in the tech workforce.

While only 36% of India's tech workforce are women, females make up just 43% of the total science, technology, engineering and mathematics (STEM) graduates and account for only 14% of all scientists, engineers and technologists. "The gender gap does not only signify bias, but it is a hurdle in the path of innovation," she said.

The presence of women falls drastically in the corporate hierarchy, with only 7% of women holding executive-level positions, just 13% working in director-level roles and a mere 17% holding mid-managerial positions, she said.

- उपरोक्त परिणामों की समीक्षा निदेशक बोर्ड की लेखापरीक्षा समिति ने 14.05.2024 को हुई अपनी बैठक में की और कंपनी के निदेशक मंडल को उनके अनुमोदन के लिए सिफारिश की। निदेशक बोर्ड ने 14.05.2024 को हुई अपनी बैठक में इसे मंजूरी दे दी है। इसके अलावा कंपनी के सांख्यिक लेखापरीक्षकों द्वारा भी परिणामों की समीक्षा की गई है।
- बिजली उत्पादन निगम की प्रमुख गतिविधि है।
- निगम के बिजली स्टेशन क्षेत्र के भीतर स्थित हैं और इसलिए भौगोलिक खंड अनुपयुक्त हैं।
- केंद्रीय वित्तिय नियामक आयोग (सीआईआरसी) द्वारा अनुमोदित टैरिफ के आधार पर ऊर्जा की बिजली का हिसाब लगाया जाता है। पावर स्टेशनों के मामले में जहां सीआईआरसी द्वारा अंतिम टैरिफ को अंतिम/अनुमोदित किया जाना बाकी है, ऊर्जा की बिजली अंतिम दर के आधार पर सीआईआरसी के समक्ष प्रस्तुत वार्षिक निश्चित लागत पर टैरिफ याचिका के माध्यम से सीआईआरसी (टैरिफ के नियम और शर्तों) विनियम 2019 के प्रस्तावित सिद्धांतों के अनुसार प्रदान की जाती है। उन परियोजनाओं के लिए जिनके लिए न तो सीआईआरसी द्वारा अनुमोदित टैरिफ उपलब्ध है और न ही सीआईआरसी के पास याचिका लंबित है, ऊर्जा की बिजली का हिसाब लाभार्थियों द्वारा स्वीकृत टैरिफ के आधार पर लगाया जाता है।
- तिमाही के दौरान परिचालन से कुल आय में "अन्य आय" 592.45 लाख (पूर्व तुलनीय अवधि 306.98 लाख) शामिल है।
- अनुपात की गणना के लिए प्रयुक्त सूत्र :
  - "ऋण सेवा कवरेज अनुपात" (डीएससीआर) = [व्याज, मूल्यह्रास और कर से पहले लाभ]/(मूल पुनर्भ्रंशयोगी + व्याज)
  - "व्याज सेवा कवरेज अनुपात" (आईएससीआर) = [व्याज, मूल्यह्रास और कर से पहले लाभ]/व्याज

विचारार्थ व्याज की राशि केवल चालू पावर स्टेशनों के लिए लिए गए ऋण से संबंधित है।
