

## **INDEPENDENT AUDITOR'S REPORT**

To the Members of Info Edge (India) Limited

### **Report on the Audit of the Standalone Ind AS Financial Statements**

#### **Opinion**

We have audited the accompanying standalone Ind AS financial statements of Info Edge (India) Limited (“the Company”), which comprise the Balance sheet as at March 31, 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind As financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind As financial statements give the information required by the Companies Act, 2013, as amended (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Standalone Ind AS Financial Statements’ section of our report. We are independent of the Company in accordance with the ‘Code of Ethics’ issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2022. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matter described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor’s responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to the matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements.

The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
<b><u>Impairment of unquoted Non- Current Investments</u></b> (as described in Note 4 (a) of the standalone Ind AS financial statements)	
<p>At March 31, 2022, the unquoted investments in non-current investments amount to Rs. 23,554.33 Mn.</p> <p>The management assesses at least annually, the existence of impairment indicators of each non-current investments, and in case of such existence, these assets are subject to an impairment test.</p> <p>The basis of impairment of non-current investments is presented in the accounting policies in Note 2.22 to the standalone Ind AS financial statements</p> <p>For the purpose of the impairment testing, value in use has been determined by forecasting and discounting future cash flows. Furthermore, the value in use is highly sensitive to changes in some of the inputs used for forecasting the future cash flows e.g estimates of oil reserves</p> <p>Further, the determination of the recoverable amount of the investments of unquoted non-current investments involved judgment due to inherent uncertainty in the assumptions supporting the recoverable amount of these investments.</p> <p>Accordingly, the impairment of non-current investments was determined to be a key audit matter in our audit of the standalone Ind AS financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>• We understood, evaluated and tested the operating effectiveness of internal controls implemented by the Company relating to identification of impairment indicators and valuation of non-current investments</li> <li>• We evaluated the Company’s valuation methodology applied in determining the recoverable amount. In making this assessment, we also assessed the objectivity and independence of Company’s specialists involved in the process.</li> <li>• We evaluated the assumptions around the key drivers of the cash flow forecasts including estimated reserved, discount rates, expected growth rates and terminal growth rates used.</li> <li>• We assessed the valuation methodology including recent secondary market transactions and the key assumptions adopted in the cash flow forecasts considering current economic scenario, including retrospective reviews to prior year’s forecasts against actual results.</li> <li>• We assessed the key assumptions to external market data or other supporting evidence including discount rates, expected growth rates and terminal growth rates with assistance from our valuation specialists.</li> <li>• We discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable.</li> <li>• We tested the arithmetical accuracy of the models.</li> <li>• We assessed the adequacy of the disclosures made in the Standalone Ind AS financial statements.</li> </ul>

## **Information Other than the Standalone Ind AS Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **Responsibilities of Management for the Standalone Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Ind AS financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Other Matter

The comparative IND AS financial information of the Company includes the financial information of 'Highorbit Careers Private Limited', which reflect total assets of Rs.165.06 Mn as at March 31, 2021, total revenues of Rs 216.44 Mn, total net profit after tax of Rs. 21.48 Mn and total comprehensive income of Rs. 21.52 Mn for the year ended March 31, 2021, based on the previously issued statutory financial statements prepared in accordance with the Indian Accounting standards notified under section 133 of the Companies Act, 2013 Companies (Indian Accounting Standard) Rules, 2015 as amended and other relevant provisions of the Act, audited by the other auditor whose report which have been furnished to us by the management, s adjusted/restated by the company to give impact of merger. We have audited the adjustments made to such financial statements. Our opinion on the standalone Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of this entity and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid entity, is based solely on the report of such other auditor.

Our opinion is not modified in respect of this matter.

## **ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF INFO EDGE (INDIA) LIMITED**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone Ind AS financial statements of Info Edge (India) Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone Ind AS financial statements included obtaining an understanding of internal financial controls with reference to these standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone Ind AS financial statements.

## **Meaning of Internal Financial Controls with Reference to these Standalone Ind AS Financial Statements**

A company's internal financial controls with reference to standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Ind AS financial statements.

## **Inherent Limitations of Internal Financial Controls with Reference to Standalone Ind AS Financial Statements**

Because of the inherent limitations of internal financial controls with reference to standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control with reference to standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone Ind AS financial statements and such internal financial controls with reference to standalone Ind AS financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

## **INFO EDGE (INDIA) LIMITED**

### **Notes to the financial statements for the year ended March 31, 2022**

---

#### **1. Corporate Information**

Info Edge (India) Ltd (the Company) CIN : L74899DL1995PLC068021 is a public limited company domiciled and incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is located at GF-12A, 94 Meghdoot Building, Nehru Place, New Delhi – 110019 and principal place of business is in B-8, Sector-132, Noida-201 304. Its shares are listed on two stock exchanges of India. The Company is primarily engaged in providing online & offline services primarily through its online portal Naukri.com, Jeevansathi.com, 99 acres.com, shiksha.com, iimjobs.com & offline portal Quadrangle.com.

The financial statements are approved for issue by the Company's Board of Directors on May 27, 2022.

#### **2. Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use.

##### **2.1 Basis of preparation**

###### **(i) Compliance with Ind AS**

These financial statements have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under section 133 of the Companies Act, 2013 ('the Act') [Companies (Indian Accounting Standards) Rules, 2015, as amended by notification dated March 31, 2016] and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The financial statements are presented in Indian Rupees and all amounts disclosed in the financial statements and notes have been rounded off upto two decimal points to the nearest Million (as per the requirement of Schedule III), unless otherwise stated.

###### **(ii) Historical Cost Convention**

The Financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) which are measured at fair value / amortised cost less diminution, if any;
- Defined benefit plans-plan assets measured at fair value; and
- Share based payments.

## INFO EDGE (INDIA) LIMITED

### Notes to the financial statements for the year ended March 31, 2022

---

#### 2.2 Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in profit or loss during the reporting period, in which they are incurred.

##### *Transition to Ind AS*

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

##### *Depreciation methods, estimated useful lives and residual value*

Depreciation is provided on a pro-rata basis on the straight line method over the estimated useful lives of assets, based on internal assessment and independent technical evaluation done by the Management experts which are stated as under, except in case of Plant and Machinery, Furniture and Fixtures and Vehicles where useful life is lower than life prescribed under Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

<b>Assets</b>	<b>Estimated useful life (Years)</b>
Building	60
Computers	3
Plant and Machinery	10
Furniture and Fixtures	8
Office Equipment	5
Vehicles	6

The leasehold improvements are depreciated over the assets' useful life or over the shorter of the assets' useful life and the lease term.

The asset's useful lives and methods of depreciation are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount of the asset. These are included in profit or loss within other income.

Assets costing less than or equal to Rs. 5,000 are fully depreciated pro-rata from date of acquisition.

**2.3 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at historical cost. Intangibles assets have a finite life and are subsequently carried at cost less any accumulated amortization and accumulated impairment losses if any.

Intangible assets with finite lives are amortized over the useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

***Amortisation methods and estimated useful lives***

<b>Assets</b>	<b>Estimated useful life (Years)</b>
Enterprise resource planning software	5
Other software licenses	3

Assets costing less than or equal to Rs. 5,000 are fully amortised pro-rata from date of acquisition.

**2.4 Impairment of non-financial assets**

Assessment is done at each balance sheet date as to whether there is any indication that an asset may be impaired. If any such indication exists or when annual impairment testing for an asset is required, an estimate of the recoverable amount of the asset/cash generating unit is made. Recoverable amount is higher of an asset's or cash generating unit's fair value less costs of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, the recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. The smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit (CGU). An asset or CGU whose carrying value exceeds its recoverable amount is considered impaired and is written down to its recoverable amount. Assessment is also done at each balance sheet for possible reversal of an impairment loss recognized for an asset, in prior accounting periods.

#### **2.5 Foreign currency translations**

(i) *Functional and presentation currency*

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency') i.e., Indian Rupee (INR) which is its presentation currency as well.

(ii) Transactions and balances

#### **Initial recognition**

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

The company follows Appendix B to Ind AS 21 – Foreign Currency Transactions and Advance Considerations which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency.

#### **Subsequent recognition**

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Exchange gains and losses arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in profit or loss in the year in which they arise.

#### **Translation of foreign operations**

The financial statements of foreign operations are translated using the principles and procedures mentioned above, since these businesses are carried on as if it is an extension of the Company's operations.

#### **2.6 Revenue recognition**

The Company follows Ind AS 115 "Revenue from Contracts with Customers" using the modified retrospective approach. Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those services (net of goods and services tax).

The Company earns revenue significantly from the following sources viz.

- a) Recruitment solutions through its career web sites such as, Naukri.com & iimjobs.com:-  
Revenue is received primarily in the form of fees, which is recognized prorata over the subscription / advertising / service agreement, usually ranging between one to twelve months.
- b) Matrimonial web site, Jeevansathi.com, Real Estate website, 99acres.com and Education classified website, Shiksha.com:-  
Revenue is received in primarily the form of subscription fees, which is recognized over the period of subscription / advertising / service agreement, usually ranging between one to twelve months. The revenue is recognized on

principal to principal basis and recognized gross of agency/commission fees, as applicable in case of Jeevansathi.com.

- c) Placement search division, Quadrangle:-  
Revenue is received in the form of fees, for placements at various levels in a client's organization. Revenue is recognized on the successful completion of the search and selection activity.
- d) Resume Fast Forward Service:-  
The revenue from Resume Sale Services is earned in the form of fees and is recognized on completion of the related service.

Revenue in relation to rendering of the services mentioned in (a) & (b) above where performance obligations are satisfied over time and where there is no uncertainty as to measurability or collectability of consideration, is recognized ratably over the period of in which services are rendered (subscription period) and rendering of the services mentioned in (c) to (d) above are recognised in the accounting period in which the services are rendered. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

In respect of (a) and (b) above, the unaccrued amounts are reflected in the Balance sheet as Income received in advance (deferred sales revenue).

The company has as a matter of practical expedient recognised the incremental costs of obtaining a contract as an expense when incurred, since the amortisation period of the asset that the entity otherwise would have recognised is generally one year or less.

#### **2.7 Retirement and other employee benefits**

##### **(i) Short-term obligations**

Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

##### **(ii) Other Long-term employee benefit obligations**

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

##### **(iii) Post-employment obligations**

The Company operates the following post-employment schemes:

- a) defined contribution plans - provident fund
- b) defined benefit plans - gratuity plans

## INFO EDGE (INDIA) LIMITED

### Notes to the financial statements for the year ended March 31, 2022

---

#### a) Defined contribution plans

The Company has a defined contribution plan for the post-employment benefit namely Provident Fund which is administered through the Regional Provident Fund Commissioner and the contributions towards such fund are recognised as employee benefits expense and charged to the Statement of Profit and Loss when they are due. The Company does not carry any further obligations with respect to this, apart from contributions made on a monthly basis.

#### b) Defined benefit plans

The Company has defined benefit plan, namely gratuity for eligible employees in accordance with the Payment of Gratuity Act, 1972 the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit method) at the end of each period. The Gratuity Fund is recognised by the income tax authorities and is administered through Life Insurance Corporation of India under its Group Gratuity Scheme.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined benefit liability) and any change in the effect of asset ceiling (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

#### (iv) Bonus Plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

#### (v) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

#### *(vi) Share based payments*

Share-based compensation benefits are provided to employees via the Info Edge Limited Employee Option Plan and share-appreciation rights. These are equity settled schemes.

#### *Employee options*

The fair value of options granted under the Info Edge Employees' Stock Option Scheme is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the grant date fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or hold shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

#### *Share appreciation rights*

Share appreciation rights granted are considered to be towards equity settled share based transactions and as per IND AS 102, cost of such options are measured at fair value as at the grant date. Company's share appreciation rights are recognised as employee benefit expense over the relevant service period.

## **2.8 Income tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax is calculated on the basis of the tax rates and the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions or make reversals of provisions made in earlier years, where appropriate, on the basis of amounts expected to be paid to / received from the tax authorities.

Deferred tax is recognized for all the temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only if it is probable that sufficient future taxable amounts will be available against which such deferred tax asset can be realised. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. The carrying amount of deferred tax assets are reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

## **INFO EDGE (INDIA) LIMITED**

### **Notes to the financial statements for the year ended March 31, 2022**

---

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, controlled trust, associates and interest in joint arrangements where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, controlled trust, associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets and liabilities and the deferred tax balances relate to the same taxable authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### **2.9 Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

#### **2.10 Non-current assets held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. The criteria for held for sale is considered to have met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale.

Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

### **2.11 Leases (as lessee)**

The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the Contract involves the use of an identified asset,
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of lease
- (iii) the Company has the right to direct the use of asset

As at the date of commencement of the lease, the Company recognises a right of use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for the leases with a term of twelve month or less (short term leases). For these short term leases, the Company recognises the lease payments as an operating expense on a straight line basis over the period of lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term. The lease liability is initially measured at amortized cost at the present value of the future lease payments. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Effective April 01, 2019 the Company adopted Ind AS 116 and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective approach and has taken the cumulative adjustment to right of use of assets, on the date of initial application. Consequently the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate at the date of initial application.

On transition; the Company recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The Company recognised a lease liability measured at the present value of the remaining lease payments. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee's incremental borrowing rate as at April 1, 2019. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

## INFO EDGE (INDIA) LIMITED

### Notes to the financial statements for the year ended March 31, 2022

---

The principle portion of the lease payments have been disclosed under cash flow from financing activities. The lease payments for operating leases as per Ind AS 17 - Leases, were earlier reported under cash flow from operating activities. Refer note 3(b) & 10(d) of financial statement for detailed disclosure.

The following is the summary of practical expedients elected on initial application:

1. Single discount rate is applied to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. The exemption for not recognising right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application has been availed
3. The initial direct costs from the measurement of the right-of-use asset at the date of initial application have been excluded
4. Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.
5. On account of Covid-19, the rent concessions are not considered as a modification to lease, and the rent concessions are considered as other income.

The incremental borrowing rate applied to lease liabilities as at April 1, 2019 is taken at 8.50%

#### 2.12 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

All operating segments' results are reviewed regularly by the Company's Managing Director & Chief Executive Officer (MD & CEO) who have been identified as the CODM, to assess the financial performance and position of the Company and makes strategic decisions.

The Company is primarily in the business of internet based service delivery operating in four service verticals through various web portals in respective verticals namely recruitment solutions comprising primarily naukri.com, other recruitment related portals and ancillary services related to recruitment, 99acres.com for real estate related services, Jeevansathi.com for matrimony related services and Shiksha.com for education related services.

##### (a) Description of segments and principal activities

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, information has been presented along these business segments. The accounting principles used in preparing these financial statements are consistently applied to record revenue & expenditure in individual segments. The reportable segments represent "Recruitment Solutions" and "99acres" and the "Others".

**1: Recruitment Solutions:** This segment consists of Naukri (both India and Gulf business) and all other allied business which together provides complete hiring solutions which are both B2B as well as B2C. Apart from all Other Online business, it also includes Offline headhunting business 'Quadrangle'.

**2: Real State- 99acres:** 99acres.com derives its revenues from property listings, builders' and brokers' branding and visibility through micro-sites, home page links and banners servicing real estate developers, builders and brokers.

## INFO EDGE (INDIA) LIMITED

### Notes to the financial statements for the year ended March 31, 2022

---

3: **Others:** This segment comprises primarily Jeevansathi and Shiksha service verticals since they individually do not meet the qualifying criteria for reportable segment as per the Ind AS.

The CODM primarily uses a measure of profit before tax to assess the performance of the operating segments. However, the CODM also receives information about the segments' revenue and assets on a monthly basis.

#### (b) Profit before tax

Profit before tax for any segment is calculated by subtracting all the segment's expenses (excluding taxes) incurred during the period from the respective segment's revenue earned during the period. To calculate the segment level expenses, certain common expenditures which are incurred for the entity as a whole but cannot be directly mapped to a single segment are allocated basis best management estimates to all the segments.

Interest income is not allocated to segments as this type of activity is driven by the central treasury function. Similarly, certain costs including corporate expenses which are not directly related to general functioning of business are not allocated to segments.

#### 2.13 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash on hand, amount at banks and other short-term deposits with an original maturity of three months or less that are readily convertible to known amount of cash and, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the company's cash management

#### 2.14 Earnings Per Share (EPS)

##### (i) *Basic earnings per share*

Basic earnings per share is calculated by dividing:

- the profit for the period
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

##### (ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential instruments into equity shares.

For the purpose of calculating basic EPS, shares allotted to ESOP trust pursuant to the employee share based payment plan are not included in the shares outstanding as on the reporting date till the employees have exercised their right to obtain shares, after fulfilling the requisite vesting conditions. Till such time, the shares so allotted are considered as dilutive potential equity shares for the purpose of calculating diluted EPS.

## **INFO EDGE (INDIA) LIMITED**

### **Notes to the financial statements for the year ended March 31, 2022**

#### **2.15 Treasury shares (Shares held by the ESOP Trust)**

The Company has created an Employee Stock Option Plan Trust (ESOP Trust) for providing share-based payment to its employees and to employees of wholly owned companies. The Company uses the trust as a vehicle for distributing shares to employees under the employee remuneration schemes. The Company allots shares to the ESOP Trust. The Company treats the ESOP trust as its extension and shares held by ESOP Trust are treated as treasury shares. Share options exercised during the reporting period are satisfied with treasury shares. The cost associated with share-based payment to employees of wholly owned companies is apportioned to them on actual basis.

The consideration paid for treasury shares including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from retained earnings.

#### **2.16 Financial Instruments**

##### **(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through other comprehensive income,
- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For financial assets measured at fair value, gains and losses are recorded either through profit or loss or through other comprehensive income. For investments in equity instruments in subsidiaries, associates and jointly controlled entities these are carried at cost less diminution, if any. However, the gains or losses with respect to Investment in Units of Controlled Trust and other investments that are not held for trading are recognised through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

##### **(ii) Measurement**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Upon initial recognition, the Company elects to classify irrevocably its equity investments which are financial investments in nature, on instrument to instrument basis, as equity instruments designated at fair value through OCI that are not held for trading. For other investments which are required to be carried at fair value are routed through Profit & loss account. Profit or gain on the investments in subsidiaries, associates or jointly controller entities, till the date of conversion to financial investments, is routed through Profit and Loss account.

### Notes to the financial statements for the year ended March 31, 2022

---

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company has classified its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows and where the contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest, are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVTOCI) :** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVTOCI). Movements in the carrying amount are taken through OCI, except for recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit & loss in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI.
- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortised cost, are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

#### Equity instruments

The Company subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly controlled entities, which are carried at cost less diminution, if any. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established. The investment in Controlled Trust & financial Investment which are not held for trade is subsequently measured at fair value through Other Comprehensive Income. Upon initial recognition, the Company elects to classify irrevocably its equity investments, on instrument to instrument basis, as equity instruments designated at fair value through OCI that are not held for trading. Gains and losses on these financial assets are never recycled to profit or loss.

#### iii) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

## **INFO EDGE (INDIA) LIMITED**

### **Notes to the financial statements for the year ended March 31, 2022**

---

#### (iv) Derecognition of financial instruments

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### (v) Financial Liabilities

Financial liabilities are classified, at initial recognition, as loans and borrowings, payables, as appropriate.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short term maturity of these instruments.

A financial liability (or a part of financial liability) is derecognized from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

#### (vi) Income recognition

##### **Interest income**

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss

##### **Dividends**

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

#### **2.17 Common control business combinations (CCBC) transactions**

Business combinations of entities under common control are accounted for using the pooling of interests method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts from the controlling parties' perspective.
- No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against general reserve.
- The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

#### **2.18 Contributed Equity**

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### **2.19 Cash dividends to equity holders**

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorised and is no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period. A corresponding amount is recognized directly in equity.

## **2.20 Exceptional items**

Exceptional items include income or expense that are considered to be part of ordinary activities, however are of such significance and nature that separate disclosure enables the user of the financial statements to understand the impact in a more meaningful manner.

Following are considered as exceptional items -

- a) Gain or loss on disposal of investments to third party or to wholly owned subsidiaries at higher or lower than the cost / book value
- b) Write down of investments in subsidiaries, jointly controlled entities and associates which are carried at cost in accordance with IND AS 27 to recoverable amount, as well as reversals of such write down.
- c) Impact of any retrospective amendment requiring any additional charge to profit or loss.
- d) Fair value loss of asset classified as held for sale
- e) Gain or loss on fair valuation of Non-current Investment till reclassification as financial investment.

## **2.21 Critical estimates and judgements**

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS that requires management to make accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. The estimates and assumptions used in the accompanying financial statements are based upon Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of non-current investments and has been discussed below. Key source of estimation of uncertainty in respect of current tax expense and payable, employee benefits and fair value of unlisted subsidiary entities have been discussed in their respective policies.

The areas involving critical estimates or judgments are:

- a) Estimation of current tax expenses and payable
- b) Estimation of Deferred tax Assets
- c) Estimation of employee benefits
- d) Share based payments
- e) Impairment of trade receivable
- f) Impairment of Investments in subsidiary/JVs and associates
- g) Estimation of significant influence in investments

## **2.22 Estimation of Impairment on Non-Current Investment-**

The Company carries reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

**Nature and purpose of reserves**

**a) Securities premium**

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

**b) General reserve**

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

**c) Stock options outstanding account**

The stock options based payment reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option plan.

**d) Capital reserve**

Capital Reserve represents the difference between cost of investment by the company in HighOrbit Careers Pvt Ltd, a wholly owned subsidiary of the company (which was amalgamated with the company pursuant to H'able NCLT order with appointed date of April 1, 2020) and carrying value of all assets and liabilities and balances in reserve and surpluses of the transferee company, in accordance with para 16 "Accounting treatment" of the scheme of amalgamation and para 12 of Appendix C of IND AS 103. Please refer note for details. Refer note 43 for details.

**e) Equity instruments through other comprehensive income**

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the Equity instruments through Other Comprehensive Income within equity. The company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

**INFO EDGE (INDIA) LIMITED****Notes to the financial statements for the year ended March 31, 2022****Note 26: Share Based Payments**

The establishment of the Info Edge Limited Employee Option Plan(s) are approved by shareholders at annual general meeting. ESOP scheme 2015 was approved by shareholders through postal ballot on April 16, 2016. The employee stock option plan is designed to provide incentives to employees generally at and above the designation of managers to deliver long-term returns. Under the plan, participants are granted options which vest upon completion of three years of service from the grant date. Participation in the plan is at the board appointed committee's discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits.

The Company has set up a trust to administer the ESOP scheme under which Stock Appreciation Rights (SAR) and Stock options (ESOP), with substantially similar types of share based payment arrangements, have been granted to employees. The scheme only provides for equity settled grants to employees whereby the employees can purchase equity shares by exercising SAR/options as vested at the exercise price specified in the grant, there is no option of cash settlement. The SAR/options granted till March 31, 2022 have a vesting period of maximum 3 years from the date of grant.

Set out below is a summary of SAR/options granted under the plan:

	March 31, 2022		March 31, 2021	
	Weighted Average exercise price per share option (₹)	Number of options	Weighted Average exercise price per share option (₹)	Number of options

<b>Closing balance</b>	<b>2,917.74</b>	<b>1,761,098</b>	<b>1,124.49</b>	<b>1,313,625</b>
<b>Vested and exercisable</b>		<b>743,193</b>		<b>773,718</b>

\*The weighted average share price at the date of exercise of options exercised during the year ended March 31, 2022 was ₹ 5,638.74 (March 31, 2021 - ₹4,264.36).

Share options outstanding at the end of the year have the following exercise price range :

Exercise price (₹) (Range)	March 31, 2022	March 31, 2021
0-300	223,595	202,405
300-600	-	-
600-900	322,183	415,035
900-above	1,215,320	696,185
<b>Total</b>	<b>1,761,098</b>	<b>1,313,625</b>
Weighted average remaining contractual life of options outstanding at end of year	3.88	4.49

**Fair value of SAR/options granted**

The fair value at grant date is determined using the Black Scholes Model which takes into account the exercise price, term of option, the share price at grant date, and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of option.

Model inputs for Options/SAR granted during the year are as follows:-

Options are granted for no consideration and vest upon completion of service for a period of three years. Vested options are exercisable for a period of four years after vesting.

	March 31, 2022	March 31, 2021
Fair Value of options (₹ per share)	2,136.41	1,307.39
Share price at measurement date (₹ per share)	5,351.40	3,419.39
Expected volatility (%)	41.65%	39.68%
Dividend yield (%)	0.24%	0.24%
Risk-free interest rate (%)	5.51%	5.24%
Expected Life (Years)	4.12	4.29

The expected price volatility is based on the historic volatility (based on the remaining life of options), adjusted for any expected changes to future volatility due to publicly available information.

**Expense arising from share-based payment transactions (refer Note 15)**

Total expenses arising from share-based payment transactions recognised in profit or loss as part of employee benefit expense were as follows:

	Amount (₹Mn)	
	March 31, 2022	March 31, 2021
Total employee share-based payment expense (Stock appreciation rights)	53.67	193.98
Total employee share-based payment expense (Employee Stock Options)	572.15	55.80
<b>Total employee share-based payment expense</b>	<b>625.82</b>	<b>249.78</b>

**30. Employee Benefits**

The Company has classified the various benefits provided to employees as under:

**A. Defined Contribution Plans**

The Company has a defined contribution plan in respect of provident fund. The minimum amount of contribution to be made by the employer is set at a rate of 12% of wages, subject to ceiling of Rs. 1800 per month as defined under the Employees Provident Fund Scheme, 1952. The contributions are made to registered provident fund administered by the Government. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation.

During the year, the Company has recognised the following amounts towards define contribution plan in the Statement of Profit and Loss –

**(D) Sensitivity analysis**

The sensitivity of the defined benefit obligation to changes in the weighted principal assumption is:

Impact on defined benefit obligation

	Change in assumption		Increase in assumption		Decrease in assumption	
	March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021
Discount Rate	0.50%	0.50%	Decrease by -4.00%	-4.20%	Increase by 4.30%	4.50%
Salary growth rate	0.50%	0.50%	Increase by 2.60%	2.80%	Decrease by -2.50%	-2.80%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior year.

**(F) Risk exposure**

Through its defined benefit plans, the group is exposed to a number of risks, the most significant of which are detailed below:

**Asset volatility**

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. The gratuity fund is administered through Life Insurance Corporation of India (insurer) under its group gratuity scheme. Accordingly almost the entire plan asset investments is maintained by the insurer. These are subject to interest rate risk which is managed by the insurer.

**Changes in bond yields**

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' assets maintained by the insurer.

The gratuity fund is administered through Life Insurance Corporation(LIC) of India under its Group Gratuity Scheme.

**(G) Defined benefit liability and employer contribution**

The Company generally eliminates the deficit in the defined benefit gratuity plan with in next one year. Expected contribution to the post employment benefit plan (Gratuity) for the year ending March 31, 2023 is ₹ 185.70 mn. The weighted average duration of the defined benefit obligation is 8 years (March 31, 2021- 9 years). The expected maturity analysis of undiscounted post employment benefit plan (gratuity) is as follows :

Particulars	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
<b>March 31, 2022</b>

36. There are numerous interpretative issues relating to the Supreme Court (SC) judgement on PF dated 28th February, 2019. As a matter of caution, the Company has made a provision on a prospective basis from the date of the SC order. The company will update its provision, on receiving further clarity on subject.

37. (a) During the year ended March 31, 2022 the Company had acquired 100% share capital of Zwayam Digital Private Limited for an aggregate consideration of ₹ 604.11 Mn.

37. (b) During the year ended March 31, 2022 the Company had acquired 100% share capital of Axilly Labs Private Limited for an aggregate consideration of ₹ 209.62 Mn.

38. The Social Security 2020 (Code), which received the President Assent on September 28, 2020 subsumes nine laws relating to social security retirement and employee benefits, including the Employees Provident Fund and Miscellaneous Provisions Act, 1952 and Payment of Gratuity Act, 1972. The effective date of the Code is yet to be notified. The Company will assess and record the impact of the Code, if any, when it comes into effect.

39. During the year ended March 31, 2022, Zomato Limited (formerly known as Zomato Media Private Limited and later known as Zomato Private Limited), has issued bonus shares in the ratio of 1:6699 to existing equity shareholders. Further, it has converted CCCPS of Class A to C and CCPS of Class E to the equity shares in the ratio of 1: 1.

Zomato Limited, has also come out with initial public offer ("IPO") of its equity shares and such shares have been listed on NSE & BSE on July 23, 2021. The company has participated in offer for sale ("OFS") as 'selling shareholder' and has sold 49.3 million shares at total consideration of ₹ 3,750 million.

Effective listing date, Zomato Limited has ceased to be a Joint venture (i.e. Jointly Controlled entity) and hence has been reclassified as financial investment which will be fair valued at each reporting date in accordance with Ind AS109. Accordingly, unrealised mark to market gain of ₹ 89,411.95 million till date of listing of Zomato has been credited to P&L through exceptional item. Unrealised gain of ₹ 7,526.53 million from date of listing till year end has been taken to Other Comprehensive Income in accordance with one time irrevocable option available under IND AS.

40. During the year ended March 31, 2022, PB Fintech Limited, the associate company, which is held by company's wholly owned subsidiaries (WOS) / Joint Venture (JV) companies, has come out with initial public offer ("IPO") of its equity shares aggregating up to ₹ 56,250 million and such shares have been listed on NSE & BSE on November 15, 2021.

Effective listing date, PB Fintech Limited has ceased to be an associate company and hence has been reclassified as financial investment which will be fair valued at each reporting date in accordance with Ind AS109 by respective WOS/ JV in their respective financials.

41. These financial statements include an unrealized notional gain upon fair valuation of financial investment (i.e. equity shares held in Zomato Limited) as stipulated under IND AS 109 amounting to Rs 89,411.95 Million (credited to Exceptional Items which forms part of Profit after Tax) and Rs 7,526.53 Million (credited to Other Comprehensive Income). Based on internal legal counsel assessment, the company believes that such notional unrealized gain is not required to be considered to calculate Financial Income with respect to threshold notified by Reserve Bank of India vide Press Release 1998-99/ 1269 dated April 8, 1999 issued under section 45-1(a) of the Reserve Bank of India Act, 1934, commonly known as 50:50 rule, to determine the requirement of registration as Non-Banking Financing Company. As a matter of abundant precaution, subsequent to year end, the company has intimated to the Reserve Bank of India about the same clearly spelling out the rationale for such assessment and shall abide by RBI's further guidance on the matter, if and when received.

42. As per Section 135 of the Companies Act, 2013 ('Act'), a Corporate Social Responsibility (CSR) committee had already been formed by the Company in earlier years. The main areas for CSR activities, as per the CSR policy of the Company are promoting education, training to promote sports and contribution to appropriate funds set up by the Central Government, further the CSR Committee may consider other CSR activities subject to the condition that such activities relate to the subjects enumerated in Schedule VII of the Act.

**INFO EDGE (INDIA) LIMITED****Notes to the financial statements for the year ended March 31, 2022****Note 43: Common control business combination**

The Board of Directors of the Company, in its meeting held on November 10, 2020, approved the Scheme of Amalgamation between the company ("Transferee Company") and Highorbit Careers Private Limited ("Transferor Company"), the wholly owned subsidiary of the Transferee Company by way of and in accordance with a scheme of amalgamation as per the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 (hereinafter referred to as the "Scheme") with the appointed date being April 1, 2020 ("Appointed Date"). The aforesaid Scheme was sanctioned by Hon'ble National Company Law Tribunal, New Delhi Bench ("NCLT") vide its Order dated March 08, 2022. The order was filed with Registrar of Companies on April 02, 2022 ("effective date"), on which date, the transferor company stood dissolved. There is no change in equity share capital (Promoter/ Public shareholding) of the Transferee Company, pursuant to the sanctioned Scheme, as no shares are being issued by the Transferee Company, in consideration of the sanctioned scheme.

With effect from the Appointed Date, the entire business and whole of the Undertaking (including all assets, properties, titles, licenses, interests, investments, liabilities, rights, commitments and obligations) of the Transferor Company, without any further act, instrument or deed, stood transferred to and vested in Transferee Company, as a going concern.

As the Transferor Company is a wholly owned subsidiary of the Transferee Company i.e. the entire issued, subscribed and paid up share capital of the Transferor Company was held by the Transferee Company and upon this Scheme becoming effective, entire such capital stood automatically cancelled and the Transferee Company was not required to issue and allot any shares to the shareholders of the Transferor Company.

On and from the Effective Date, the profits of Transferor Company, for the period beginning from the Appointed Date (i.e. April 1, 2020) belonged to and be the profits of Transferee Company and are included as such.

**A. Accounting Treatment:**

The Transferee Company has accounted for such merger in accordance with "Pooling of interest method" of accounting as laid down in Appendix C of IND AS-103 Business Combinations of entities under common control notified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as specified in the scheme, such that:

- All assets and liabilities of the transferor Company are stated at the carrying values as appearing in the consolidated financial statements of Transferee Company.
- The identity of the reserves have been preserved and are recorded in the same form and at the carrying amount as appearing in the consolidated financial statements of Transferee Company.
- The inter-company balances between both the companies have been cancelled.
- The value of investments held by the Transferee Company in the Transferor Company stood cancelled.
- The deficit arising after taking the effect of clauses (a) to (d) has been adjusted in "Capital reserve" in the financial statements of the Transferee Company and has been presented separately
- Comparative financial information in the financial statements of the Transferee Company has been restated for the accounting impact of merger, as stated above, as if the merger had occurred from the beginning of the comparative period.

**Notes to be read with above ratios respectively :**

1	Current ratio is calculated on Current asset over current liability.
2	Debt Equity ratio is computed on total Debt over total equity(i.e. Equity and other equity).
3	Debt service coverage ratio is computed on Earning available for debt service (Net profit after taxes + Non-cash operating expenses like depreciation, ESOP, Interest and other adjustments) over debt service (Interest & Lease payments+principal payments)
4	Return on equity is computed on Net profit after tax over Average shareholder's equity
5	Inventory Turnover ratio is not applicable as Company does not have any inventory, being a service company.
6	Net Credit sales here means total credit billing less sales return and is computed on Net credit billing over average trade receivables
7	Trade payable turnover ratio is computed on credit purchase over average trade payable
8	Net capital turnover ratio is computed on Revenue from operations over working capital i.e. Current Assets less Current Liabilities
9	Net profit ratio is computed on Net profit of the year(i.e. Profit after tax and exceptional item) over revenue from operations.
10	Return on Capital employed is computed on Earning before Interest and tax (after exceptional item) over capital employed (Tangible Net Worth + Total Debt + Deferred Tax-Equity instrument through OCI)
11	Return on Investment is computed on Income earned on Investment (including gain recorded in exceptional item & other comprehensive income) over weighted average Investment. Return on Investment is calculated for treasury funds (including Fixed deposit & Mutual fund) and for financial investments which are valued at mark to market.

##### Fair value hierarchy

The following section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value through profit or loss. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

##### b) Fair value hierarchy for assets

###### Financial assets measured at fair value at March 31, 2022

	Level 1	Level 2	Level 3	Total
<b>Financial Assets</b>				
Investments				
- Investment in Equity shares	98,322.75	-	-	98,322.75
- Mutual Funds-Daily Dividend & Debt Liquid Fund	4,409.32	-	-	4,409.32
- Investment in Units	-	-	1,381.68	1,381.68

	Level 1	Level 2	Level 3	Total
<b>Financial Assets</b>				
Investments				
- Investment in Units	-	-	1,049.69	1,049.69

##### Notes:

Level 1 hierarchy includes financial instruments measured using quoted prices (unadjusted) in active market for identical assets that the entity can access at the measurement date. This represents mutual funds that have price quoted by the respective mutual fund houses and are valued using the closing Net asset value (NAV).

Level 2 hierarchy includes the fair value of financial instruments measured using quoted prices for identical or similar assets in markets that are not active.

Level 3 If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted compound instruments.

There are no transfers between any of these levels during the year. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

##### c) Valuation techniques used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or mutual fund houses quotes (NAV) for such instruments. This is included in Level 1.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis for which third party valuer is appointed. This is included in Level 3.

##### d) Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of loans, trade receivables, cash and cash equivalents, other bank balances, other financial assets and trade payables are considered to be the same as their fair values, due to their short-term nature. The fair values for security deposits, Investment in preference shares & investment in debentures and borrowings are calculated based on cash flows discounted using a current lending rate, however the change in current rate does not have any significant impact on fair values as at the current period end.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

##### (e) Valuation processes

The Company uses third party valuers to perform the valuations of the unquoted equity shares, preference shares and debentures required for financial reporting purposes for Level 3 purposes other than investment in compulsorily redeemable preference shares and debentures (Debt instruments) which are done by Finance department of the company.

The main Level 3 inputs for these unlisted securities are derived and evaluated as below.

- Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.
- Earnings growth factor for unlisted equity securities are estimated based on market information for similar types of companies to the extent available.

##### Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see (c) and (e) above.

**Note 48 : Financial risk and Capital management**

**A) Financial risk management framework**

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

<b>Risk</b>	<b>Exposure arising from</b>	<b>Measurement</b>	<b>Management of risk</b>
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Aging analysis Credit ratings	Diversification of bank deposits, credit limits and regular monitoring.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of surplus cash, committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level, with option of taking Forward foreign exchange contracts if deemed necessary.
Price Risk	Investments in mutual funds	Credit ratings	Portfolio diversification and regular monitoring

**a). Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

**Trade and other receivables**

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due. This definition of default is determined by considering the business environment in which Company operates and other macro-economic factors.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company, market intelligence & goodwill. Outstanding customer receivables are regularly monitored.

The Company has established an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables and 12-month expected credit loss for other receivables. An impairment analysis is performed at each reporting date on an individual basis for major parties. In addition, a large number of minor receivables are combined into homogenous categories and assessed for impairment collectively. The calculation is based on historical data of actual losses. The Company evaluates the concentration of risk with respect to trade receivables as low.

**Reconciliation of loss allowance provision:**

	<b>Trade receivables</b>
	<b>(₹Mn)</b>
<b>Loss allowance as on March 31, 2021</b>	<b>50.32</b>
changes in loss allowance	(21.41)
<b>Loss allowance as on March 31, 2022</b>	<b>28.91</b>

**Cash and cash equivalents**

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invest in deposits with banks with high credit ratings assigned by external credit rating agencies, accordingly the Company considers that the related credit risk is low. Impairment on these items are measured on the 12-month expected credit loss basis.

**INFO EDGE (INDIA) LIMITED****Notes to the financial statements for the year ended March 31, 2022****b). Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's treasury maintains flexibility in funding by maintaining liquidity through investments in liquid funds and other committed credit lines. Management monitors rolling forecasts of the group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

**(i) Financing arrangements**

The Company had access to the following undrawn borrowing facilities at the end of the reporting year :

Particulars	Amount (₹Mn)	
	March 31, 2022	March 31, 2021
Cash credit facilities	-	-

The bank overdraft facilities may be drawn at any time.

**(ii) Maturities of financial liabilities**

The amount disclosed in the below table represent the contractual undiscounted cash flows. Balances equal their carrying balances as the impact of discounting is not significant.

**(c). Market risk**

Market risk is the risk arising from changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of the investments. Thus, the exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency.

**(i). Currency risk**

The Company is exposed to currency risk on account of foreign currency transactions including recognized assets and liabilities denominated in a currency that is not the Company's functional currency (₹), primarily in respect of US\$, United Arab Emirates Dirham (AED), Saudi Riyal (SAR) and Bahraini Dinar (BHD). the Company ensures that the net exposure is kept to an acceptable level and is remain a net foreign exchange earner.

**(ii). Interest rate risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

**Exposure to interest rate risk**

The Company's borrowings and deposits/loans are all at fixed rate and are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The exposure of the Company's financial assets/liabilities at the end of the reporting period are as follows:

Particulars	Amount (₹Mn)	
	March 31, 2022	March 31, 2021
<b>Fixed-rate instruments</b>		
Financial assets	24,532.74	28,830.77
Financial liabilities	5.67	2.44
<b>Total</b>	<b>24,538.41</b>	<b>28,833.21</b>

**(iii). Price risk****Exposure**

The Company's exposure to securities price risk arises from investments held in mutual funds and classified in the balance sheet at fair value through profit or loss. To manage its price risk arising from such investments, the Company diversifies its portfolio. Further these are all debt base securities for which the exposure is primarily on account of interest rate risk. Quotes (NAV) of these investments are available from the mutual fund houses.

Profit for the year would increase/decrease as a result of gains/losses on these securities classified as at fair value through profit or loss.

**B) Capital management****a) Risk management**

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders. The capital of the Company consist of equity capital and accumulated profits. The Company avails borrowings only for buying vehicles.

**b) Dividend**

Particulars	Amount (₹Mn)	
	March 31, 2022	March 31, 2021
<b>(i) Interim dividends :</b>		
1st interim dividend : ₹ 8.00 per share (March 31, 2021 Nil per share)	1,030.27	-
<b>(ii) Dividends not recognised at the end of the year</b>		
In addition to the above dividends, since year end the directors have declared		
a) Interim dividend of ₹ Nil per fully paid equity share (March 31, 2021 - ₹ 8.00).	-	1,030.27
b) Final dividend of ₹ 5.00 per fully paid equity share (March 31, 2021 - Nil). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.	643.92	-

**49. Customer contract balances**

The Company is following Ind AS 115 on Revenue from Contracts with Customers, using the modified retrospective approach. The standard was applied retrospectively only to contracts that were not completed as at the date of initial application and comparative information was not restated in the statement of profit and loss. The adoption of the standard did not have any material impact on the recognition and measurement of revenue and related items in the financial statements/results. Revenue from sale of services is recognised over the period of time.

<b>Particulars</b>	<b>March 31, 2022 (₹Mn)</b>	<b>March 31, 2021 (₹Mn)</b>
Trade Receivable	79.06	60.50
Contract Liabilities	8,242.21	5,234.31

Trade receivables are non-interest bearing and are generally on terms of 30 to 90 days and are conditioned to be recovered purely on passage of time. Hence contract assets have been considered to be Nil.

Contract Liabilities includes Deferred Sales revenue and advance received from Customer

Other disclosure as specified under IndAS 115 are not required to be made as a matter of practical expedient , since the performance obligation is part of contract that has an original expected duration of one year or less.

Contract liabilities are primarily the deferred sales revenue against which amount has been received from customer but services are yet to be rendered on the reporting date either in full or in parts. Contract liabilities are recognized evenly over the subscription period, being performance obligation of the Company.

**Set out below is the amount of revenue recognised from:**

<b>Particulars</b>	<b>For the year ended March 31, 2022 (₹Mn)</b>	<b>For the year ended March 31, 2021 (₹Mn)</b>
Amount included in contract liabilities at the beginning of the year	5,222.82	4,719.42

The company has as a matter of practical expedient recognised the incremental costs of obtaining a contract as an expense when incurred, since the amortisation period of the asset that the entity otherwise would have recognised is generally one year or less.

## 50. Recent pronouncements

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022 to amend the following Ind AS which are effective from April 01, 2022

### 1. Onerous Contracts – Costs of Fulfilling a Contract – Amendments to Ind AS 37

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

### 2. Reference to the Conceptual Framework – Amendments to Ind AS 103

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

### 3. Property, Plant and Equipment: Proceeds before Intended Use – Amendments to Ind AS 16

The amendments modified paragraph 17(e) of Ind AS 16 to clarify that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The amendments are not expected to have a material impact on the Company.

### 4. Ind AS 109 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The amendments are not expected to have a material impact on the Company.

51. Previous year figures have been regrouped/ reclassified to bring it in conformity with presentation required by Schedule III of the Act.
