Naukri.com introduces an International Jobs section on its website

Over 9000 International Jobs for various positions, industries and functional areas are available only on Naukri.com

For Immediate Release

New Delhi, December 13, 2007: Naukri.com, India's No. 1 job site, has introduced an International Jobs section on the website. With over 9000 International Jobs **in over 15 countries**, the section contains opportunities for freshers as well as professionals with up to 25 years of experience. The jobs are largely located in USA, UK, Dubai and Singapore.

On this development, **Mr. Hitesh Oberoi, COO, Info Edge (India) Ltd.** commented, "With globalization of services, there is a lot of requirement for white collar talent across countries. At Naukri, over 10% of individuals are open to working abroad. At the same time, there is a huge demand for Indian talent. Thus, creating this new section is a logical step to cater to the demand and simplify search further."

The jobs range across industries and functional areas. Industries that offer most jobs abroad include Software Services, Construction, Engineering, Metals, Oil & Gas, Infrastructure, Healthcare, Banking, Financial Services and Aviation.

It's fairly simple; all that the user needs to do is click on the International Job section, search, allow for the job options to come up, browse through the listings and apply to jobs through the site. Further, one can filter search results by industry, role and freshness. The page also features a selection of companies that are offering international jobs.

Naukri.com has taken this step to make the site more search friendly and focused. It also showcases the ongoing efforts at Naukri to innovate, upgrade and add benefits to its users by making the search more relevant and improve functionality
